DETAILED ACTION

1. The amendment received on 10/04/2007 has been considered. It has been noted that claims 1-2 and 9-10 have been amended. Therefore claims 1-16 are pending.

Reasons for Allowance

2. Claims 1-16 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1 and 9 distinguish over the prior art of record in that the Applicant specifically claims a sequencing game with a housing, a plurality of manually operable controls, a microprocessor which generates and sensorially renders a sequence of events , where each event in the sequence of events is related to one manually operable control of the plurality of manually operable controls, and a mechanical means to rotate the housing while the sequence of events are being sensorially rendered, further including programming to control the mechanical means for changing the rate of rotation and/or a direction of the rotation based on the correctness of the response to the sequence of events generated. The teaching of the Applicant's claims are different from the prior art in that the prior art teaches as the prior art fails to a mechanical means to rotate the housing while the sequence of events are being sensorially rendered, further including programming to control the mechanical means for changing the rate of rotation and/or a direction of the rotation based on the correctness of the response to the sequence of events generated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
